WASTE MANAGEMENT POLICY

Statement

BASCW Waste Management Policy outlines the commitment of the Institution to reduce its environmental impact through effective waste management and sustainable practices of waste conversion methods. The institution aspires to achieve a Zero Waste plan, therefore achieving its Eco-friendly campus, by following the "reduce, reuse, and recycle" strategy.

Objectives

- To assess the activities involved for determining the type, nature and estimated volumes of waste to be generated
- To identify any potential environmental impacts from the generation of waste in the college
- To recommend appropriate waste handling and disposal measures in accordance with the current legislative and administrative requirements
- To categories waste material where practicable for disposal considerations

Action Plan

Waste Management Plan

- Quantify, Monitor and Evaluate the Waste generation, disposal and collection system in the Campus, regularly.
- Initiating sustainable practices like Composting for Waste generated from the Canteen and mess.
- Introducing innovative strategies to reduce paper waste and plastic waste in the campus.
- Ensuring effective disposal methods for Laboratory and Hazardous Wastes generated in the campus.
- Conduct awareness programs on Waste minimization.
