WATER MANAGEMENT POLICY

STATEMENT

The water management policy of BASCW includes all the water related field activities. There is continuous drinking water (24X7) supply to a large academic community of the entire Institution. Water management policy is required to assure the quality of water distributed from the unique sources of water conservation system.

OBJECTIVES

- To provide adequate water supplies to meet demands of the campus.
- To provide clean, safe, reliable drinking water at all times.
- To increase water availability through recycling.
- To enable water storage and propose conjunctive management of surface and groundwater
- To enhance the management of watersheds through community outreach.

Action Plan

- Monitoring the water levels of all conservation system
- Verifying the water quality periodically
- Taking measures to improve the water quality
- Conducting meeting regularly and review the policy
